Creating Disruptive Strategies to Close the Digital Divide in Maine & Beyond

Take Free Interactive Classes!

► Partner Onsite

Our **Partner Onsite Classes Program** allows locations throughout Maine to have **in-person sessions of up to 10 people** for any of our online interactive classes. This allows individuals all across Maine to participate in our free classes in the way that works best for them.

► Online Interactive

Our **Online Interactive classes** are **live Zoom classes** which are completed in one to three one-hour sessions depending on the class topic.

NDEC Partner Programs

Contact us at:

makeadifference@digitalequitycenter.org for help securing funding for a devices program, joining our Partner Onsite Classes Program, or to train and provide a reporting system for community Digital Navigators.

A Class We Recommend

Affordable Internet After the Affordable Connectivity Program

- As the FCC's Affordable Connectivity Program winds down, how can families continue to save on their internet bill?
- In this class you will learn how to determine what internet speeds your family needs, options for low-cost internet, how to cut the cord, and more.

Digital Equity & Digital Inclusion Plans

- To address leveraging the internet, communities can adopt a **Digital Equity & Digital Inclusion Plan**. A plan includes designing intentional strategies and investments to reduce and eliminate barriers to access and technology use.

Work with us to create and execute a Digital Equity & Digital Inclusion Plan for your community!

Interested in Volunteering?

- We are always looking for passionate, hardworking individuals to participate in our **Volunteer Digital Navigator Program!** If you are interested in becoming an NDEC Volunteer Digital Navigator, please email us at dnmgmt@digitalequitycenter.org

Maine Digital Skills Success Program

The National Digital Equity Plan, and its Maine Digital Skills Success Program, has two Individual Learning Plan Programs under which digital skills learners are able to receive assessment of their skills and one-on-one support:

- Basic Digital Skills Individual Learning Plans (ILP)
- Path to Work Skills Success Individual Learning Plans (ILP) Both Individual Learning Plans include unlimited free participation for Maine residents in all NDEC classes both online and in-person at Partner Onsite Class locations for Maine residents.

If you are interested in one or more Individual Learning Plan Programs, please contact us at info@digitalequitycenter.org.
